Design, construction, and support of high-quality radio cells based on Motorola radio technology. Hand in hand with effective IT solutions, this has been the focus of our business activities since our company was founded. We also maintain one of the largest rental fleets of radio equipment in Europe. Here, too, we specialize in the rental of high-quality Motorola radio equipment.

We are delighted to count many well-known festivals and industry customers among our long-standing business partners. These include the renowned international film festival "Die Berlinale."

In 2024, the radio equipment for the Berlinale will once again come from our sub-brand "Funkgeräte-Vermietung.de," which we are very pleased about, especially since cinemas often pose a particular challenge in terms of radio technology. Our team led by Gregor, who is once again the main contact for radio equipment and radio cells at festivals this year, designed effective coverage plans during the planning phase so that we can now guarantee the best possible communication at all locations.
