### Spreenauten to provide state-of-the-art radio technology for the 2025 Berlinale – Motorola R7 Premium to be used for the first time

📅 01/02/2025

Once again this year, the radio equipment rental team at Spreenauten is a proud partner of the Berlinale, providing a high-performance communications infrastructure at all locations. With a combination of Motorola rental radios, repeaters, and radio cells, we ensure reliable and smooth communication behind the scenes of one of the world's most important film festivals. Curtains up and premiere for the Motorola R7 Premium at the Berlinale! We are particularly pleased to add the new Motorola R7 Premium to our rental fleet for the first time this year. This latest flagship radio from Motorola offers: Outstanding audio quality with intelligent noise cancellation – ideal for noisy festival environments. Reliable range thanks to state-of-the-art radio technology. Robust construction for intensive use on film sets, at events, and in logistics. ... making it the ideal radio solution for an international film festival. During the Berlinale, our radios are used in various areas:  Technology – coordination of event technology  Event logistics & security – communication between event teams, security, and ticketing.  Transport & setup – coordination for smooth operations between festival locations. Spreenauten: Innovation meets radio technology Our strength lies not only in providing state-of-the-art radio solutions, but also in developing innovative software solutions. Based on the Motorola R7, we are already working on a customized dispatcher app that will enable even more efficient control and monitoring of radio communications. With our flexible rental solutions, forward-looking technologies, and individual consulting, we are the perfect partner for anyone who needs a powerful communications solution – not just at the Berlinale, but for any type of event or production.  Request rental radios now and benefit from our expertise! #Berlinale2025 #MotorolaR7 #RadioSolutions #Spreenauten #EventCommunication

### We want to radio your bicycle!

📅 14/09/2025

“Longerererer.” That could actually be a great slogan for our new R7 batteries (and the Motorola R7 radios that go with them) — powered by Motorola's new IMPRES 2 technology, they last up to 16 hours on a single charge. Pretty amazing. Even more impressive: 226 kilometers on a bike — starting at the Olympic Stadium, across Berlin, and back again. Our deepest respect to everyone who took part in this year's BRV Cycling Marathon. Also on site: Funkgeräte-Vermietung.de (our radio equipment rental service in Germany), providing a fleet of Motorola radios to ensure autonomous, clear, and powerful communication — absolutely essential for any outdoor event. Radios for marathon events — whether on foot or on two wheels — remain the ultimate challenge. Fast-moving participants require flawless coordination, and this has become one of our core specialties, refined with great care over the years.

In addition to the Motorola SLR5500, we now also offer mobile range extension options to keep communication strong throughout large areas. We're always happy to advise you — free of charge — drawing on nearly 30 years of experience in professional radio communications. If you're looking to buy instead of rent, we'd love to help with that too. As a Motorola Platinum Partner and one of the largest resellers in the EU, we offer outstanding pricing and our renowned, top-tier service. Special thanks to Google

Gemini for the image that captures this story perfectly.
