Our new website goes online!

📅 01/04/2020

Finally - after numerous night shifts of our web guru Cezary and a lot of discussions about which contents should be presented first, our new website at Spreenauten.de is launched today. It will also replace our old website, which only gave a very poor overview of our services - especially regarding DMR and TETRA radio cells. We have also tried to make the contents informative even for radio inexperienced users and to give a general overview of us and the business areas in which we are active (radio technology, IT etc.). The website is intended to provide information about the technologies and the main brands (Motorola, Hytera, Sepura, Zebra) we work with. We are particularly pleased to be able to present a large part of our line up (i.e. our team). In our newsletter we will inform about news, updates (about our company, radio technology and IT) in the future. We are always happy to receive feedback, criticism and suggestions regarding our new website and our services.

The Spreenauten say: THANK YOU!

📅 09/07/2020

... for an immensely strong first half of 2020! 57% growth in the first 6 months, and this despite Corona and the weaknesses in our rental business - this is definitely a reason to thank all our business partners and friends very much! The Spreenauten have always been active for a large number of small, medium-sized and a few large customers - this healthy basis obviously enables us to survive difficult economic times, for which we are very grateful. In addition to this, there is our growing business in the areas of software as well as hardware development. We have also received the first orders for our mobile UV disinfection stations. Many thanks! For you, we are happy to continue to pick up speed and remain, as we say: customer obsessed!

Become a Spreedi :)

📅 01/08/2020

The Spreenauten work in an equally exciting and inspiring industry and can now look back on over 20 years of business experience (founded in 1999 as a sole proprietorship, since 2011 as Spreenauten GmbH). In addition to the rental and sale of Motorola radios and software development, we have been concentrating on the installation of radio cells since the company was founded - mainly internationally (focus on Europe) and here on large industrial sites and in large halls. For these installation and assembly activities, we are constantly looking for skilled and motivated helpers and electricians (m/f/d) who would like to help on site. We always work in teams, usually led by an engineer and always with experienced technicians. Of course we are learning. We communicate in German or English - one of these languages should be mastered at an advanced level. In addition to (very) fair conditions (also regarding overtime, holidays, benefits etc.), we offer a secure and permanent job. We are looking forward to receiving your application by e-mail, gladly with CV and salary expectations to neuefreunde@spreenauten.de. Here you can find further current job offers of the Spreenauten GmbH.

Spreenauten - United we stand, divided we fall!

📅 04/03/2021

Diversity is one of the main principles of Spreenauten GmbH - besides our deep-rooted commitment to the LGBTQ movement and our commitment to the rescue of refugees at sea, we support all projects that have a colorful, free and anti-fascist society as their goal. From now on we visualize this with our logo addon, the rainbow including the brown and the black ray of light. As an internationally operating company with an international workforce, we strongly oppose any form of racism, whether in our company or in society. In addition, we try to create escape & rescue rooms in our locations and therefore also mark them with the rainbow. Spreenauten - United we stand. Divided we fall!

New Addition to Our IT Team: Najmiddin Joins Our Software Development Department

📅 09/02/2025

Already since July 2024, Najmiddin has been strengthening our IT team as a backend developer. With his deep expertise in Python, Django, and Docker, he brings valuable experience in developing high-performance web applications and a fresh perspective on our existing software solutions for Motorola DMR radio technology. Najmiddin's first focus is on a key internal project: modernizing our rental platform www.funkgeraete-vermietung.de. This platform, designed for businesses, event organizers, and industrial partners, will undergo a technical overhaul in the coming months to ensure even more efficient booking and management of Motorola radios. In addition to an improved user experience and faster loading times, new features will be introduced to automate rental processes. But this is just the beginning: Spreenauten GmbH is increasingly focusing on app development for Motorola DMR radio technology, with the goal of expanding existing communication solutions and setting new standards for integrating Motorola R7 Premium and other digital radio solutions into modern IT environments. Najmiddin will play a key role in this, particularly in the development of REST APIs and containerized applications for professional radio communication. With his experience in scalable backend systems, cloud technologies, and CI/CD pipelines, Najmiddin is a perfect fit for our development team. We look forward to upcoming projects and welcome him on board!

Spreenauten to provide state-of-the-art radio technology for the 2025 Berlinale – Motorola R7 Premium to be used for the first time

📅 01/02/2025

Once again this year, the radio equipment rental team at Spreenauten is a proud partner of the Berlinale, providing a high-performance communications infrastructure at all locations. With a combination of Motorola rental radios, repeaters, and radio cells, we ensure reliable and smooth communication behind the scenes of one of the world's most important film festivals. Curtains up and premiere for the Motorola R7 Premium at the Berlinale! We are particularly pleased to add the new Motorola R7 Premium to our rental fleet for the first time this year. This latest flagship radio from Motorola offers: Outstanding audio quality with intelligent noise cancellation – ideal for noisy festival environments. Reliable range thanks to state-of-the-art radio technology. Robust construction for intensive use on film sets, at events, and in logistics. ... making it the

ideal radio solution for an international film festival. During the Berlinale, our radios are used in various areas:

- Technology – coordination of event technology
- Event logistics & security – communication between event teams, security, and ticketing.
- Transport & setup – coordination for smooth operations between festival locations.

Spreenauten: Innovation meets radio technology. Our strength lies not only in providing state-of-the-art radio solutions, but also in developing innovative software solutions. Based on the Motorola R7, we are already working on a customized dispatcher app that will enable even more efficient control and monitoring of radio communications. With our flexible rental solutions, forward-looking technologies, and individual consulting, we are the perfect partner for anyone who needs a powerful communications solution – not just at the Berlinale, but for any type of event or production.

- Request rental radios now and benefit from our expertise! #Berlinale2025 #MotorolaR7 #RadioSolutions #Spreenauten #EventCommunication

New environmental protection policy of Spreenauten GmbH

📅 26/06/2025

As specialists in technical solutions and the global installation of radio cells for critical communications in complex environments, environmental protection and sustainability have played an important role for us since the company was founded. Internal tasks often get neglected, but today we are pleased to announce that we have comprehensively revised our environmental policy! :) It is now based on our proven agile principles and fits seamlessly into our mission statement and our existing guidelines on human and animal rights, information security and anti-corruption. For us, environmental protection is not an optional extra, but is firmly anchored in our DNA. 'For Spreenauten, sustainability is not just a mandatory exercise, but an integral part of our technological work,' explains Oliver Hertkorn, Environmental Officer and Managing Director of Spreenauten GmbH. "Our passion for robust hardware and software development goes hand in hand with our responsibility for our planet. Our agile environmental policy enables us to respond even more quickly to new challenges and to continuously and transparently pursue our goals of resource efficiency and carbon neutrality." We firmly believe that protecting all living beings and preserving our environment are our highest principles. Whether we are developing innovative wireless solutions or installing highly complex infrastructures worldwide, we always think about maximum product life and minimum environmental impact. This includes approaches such as 'refurbishment first', modular development for reparability and upgradeability, and our 'green coding' in software development. This holistic way of thinking fits seamlessly into our corporate philosophy. We protect environmentally relevant data with the same care as sensitive information and attach great importance to the ethical selection of our partners, from suppliers to waste disposal companies. With our technical expertise and passion for innovation, we are working to make the future not only more functional, but also more sustainable. We invite you to learn more about this approach. With our new agile environmental policy, we are ...

Spreenauten GmbH Recognized Again in 2025 as Motorola Platinum Partner for DMR and TETRA

📅 18/06/2025

We are proud to announce that Spreenauten GmbH has once again been recognized as a Motorola Platinum Partner in 2025 for both DMR (Digital Mobile Radio) and TETRA (Terrestrial Trunked Radio). This prestigious partner status represents the highest level of trust, technical excellence, and strategic collaboration with Motorola.

experience, and a long collaboration with Motorola Solutions, one of the global leaders in professional communication technologies. What This Means for Our Friends & Clients Our Motorola Platinum Partner status provides numerous advantages for our customers: Early Access to the Latest Radio Technologies We receive exclusive early access to new Motorola product lines and solutions, including R7 Premium, Tetra, WAVE PTX, and BodyCam systems – allowing our clients to benefit from cutting-edge communication technologies ahead of the market. Exclusive Pricing and Project Discounts Thanks to our direct partnership with Motorola, we can offer our customers exceptional pricing, both for equipment purchase and long-term rental models. Priority Technical Support and Service Clients benefit from faster response times and prioritized repair services, including direct communication with Motorola's technical and engineering teams. Customized Solutions and Branding We work closely with Motorola to develop tailored communication systems, including device customization such as branded casings, color-coded accessories, and integration into complex IT or security infrastructures. Future-Proof Guidance and Expert Consulting Being a Platinum Partner grants us access to development roadmaps, beta programs, and internal expertise. This allows us to advise our customers with deep insight and help them make sustainable, future-ready investments. Why It Matters DMR and TETRA are essential communication standards in sectors like public safety, logistics, industrial operations, event coordination, and smart cities. Our renewed Platinum status ensures our customers continue to receive only the highest level of service, technology, and long-term reliability. We thank Motorola Solutions for their continued trust and look forward to many exciting projects with our partners across Europe and beyond. For consultations, project planning, or test equipment inquiries, our team is here for you ☐ support@spreenauten.com ☐ +49 (0)30 ...
